Video Tape Transfer to DVD

We can duplicate your video tapes to DVD to preserve your memories. We recommend only putting up to 2-2.5 hours per DVD. The charge for putting one tape onto 1 DVD is \$20. If you want us to add additional tapes to the same DVD, the charge is \$15. If you wish us to break your DVD into separate menu bars, there is a \$5 per cut charge. Utmost care is taken with your original tapes. We duplicate from the following formats: VHS, S-VHS, 8mm, Hi8, Digital 8, Mini-DV. If you have a DVCam, 3/4 inch or Betamax tape, we do that, but there is a \$20 setup fee for those machines. We normally offer a 3-5 day turn around time for 1 to 3 tapes. If you have more tapes, we will estimate the delivery time.

Audio Cassette to CD Transfer and Duplication

We can duplicate your audio cassettes to CD. The charge for a straight through copy is \$25. If you wish us to break your CD into separate titles, especially music tapes, there is a charge of \$5 per cut. There is an 80 minute limit to audio CDs. Extra charge for Reel to Reel Tape. Expect a 2-4 week turnaround.

Old Film to DVD Transfer

We can transfer your old 8mm, Super8, or 16mm movie film to DVD. If your film is on small 3 inch reels, we splice them together in the order you choose and clean and lubricate the film as we put them on 400 foot reels. We use a scanner hooked directly to a computer to capture the film. We then burn the files onto a DVD for playback on a standard DVD player on TV or a computer. The charge for this service is \$.22 per foot plus \$2 per splice. There is also a \$15-\$50 charge for consumables. Expect a 4-6 week turnaround time.

DVD Duplication

Includes Black Ink Label & Paper Sleeve
 Plastic Jewel Cases \$.25each
 Color Label \$1.00each
 Color Label Setup \$10

1	\$10 each
