

## Video Storybooks Information

Our Video Storybooks combine your favorite photographs with music that you choose for your special occasion. We produce the Storybooks on DVD and/or VHS video tape.

Please read the following information so that you can help us make your Video Storybook memorable.

1. The photographs should be numbered in the order in which they will be shown on the back in ball point pen. Please have numbering continuous from 1 to the last photograph. They will be copied in order. The photographs should be placed in order into an envelope or sealable bag. This will ensure that they stay in the proper order.
2. Photographs will be shown on the screen normally for 5 seconds or 12 pictures per minute.
3. Once you've chosen your music make a note that, for example pictures 1-30 go with song #1, 31-67 with song #2 and so forth. We can adjust the music to fit the number of pictures.
4. If some of the photographs are in an album or scrapbook, please place an index card in order with the loose photos that tells us that picture # \_\_\_ is in the book. Mark the page and image with a sticky note identifying the picture # in the show. ***There is a \$5.00 charge each time we change formats.***
5. There will be a charge of \$3.00 each for digital photographs used in a Storybook.
6. We include 1 title in your Storybook. Additional titling is available for \$5.00 each. Please have the exact wording ready when you bring in your order. If you have extensive titles, please make an email with that content and send it to: [jim@ciphoto-video.com](mailto:jim@ciphoto-video.com).
7. Typically, we can reproduce your photographs to look as good on the screen as they do in the photograph. Dark photos will look dark and light ones will look light on screen.

We have found through producing slideshows for more than 30 years that viewing time is best between 5 seconds is best for most shows.

If you are showing the show at an event like a Rehearsal Dinner or Reception and want the show to repeat continuously, we can put it on a 2 hour VHS tape or DVD several times so the show will "loop." If you need it for more time simply start it over.

We make every effort to produce the show the way you want it. If you will follow the above guidelines it will help avoid confusion and help us to produce your Video Storybook faster and better.
